MAXIM LECONIUC

JAVA DEVELOPER INTERN

👤 OBJECTIVE STATEMENT

Aspiring Backend Developer with a strong academic foundation and hands-on experience in C++, JavaScript, React, and Java with Spring. Passionate about building scalable and efficient systems, with several completed projects showcasing practical skills in modern backend technologies. Eager to contribute to impactful software solutions and grow as a professional in backend development.

🎓 EDUCATION

STEP IT Academy Moldova   Chisinau, Moldova
Software Development Program   11/2022 - Present
- Coursework: Object-Oriented Programming, Web Development, Database Management, Algorithms, and Data Structures, Software Engineering, Agile Methodology, Java, JavaScript, Python.
- Projects: Developed a full-stack web application, emphasizing object-oriented programming principles and database optimization. Applied agile practices in team-based projects to solve real-world challenges and build scalable solutions.

Nicolae Testemițanu State University of Medicine and Pharmacy   Chisinau, Moldova
Integrated Diploma in Medicine (Equivalent to Bachelor's and Master's)   09/2015 - 07/2021
- Completed an integrated medical program, which included both undergraduate and graduate-level coursework in general medicine. Gained extensive knowledge in medical theory, patient care, diagnostics, and clinical practice, with professional training in various medical fields, including general medicine.

👤 EXPERIENCE

Fixed Price Towing   Remote
Web Developer   12/2023 - 02/2024
- Built a clean, responsive website for a local towing business using HTML, CSS, and Node.js for backend integration.
- Implemented email notifications for booking and service requests, ensuring streamlined communication between customers and the business.
- 🔗 https://www.fixedpricetowing.com/

Los Angeles Movers   Remote
Web Developer   05/2024 - 08/2024
- Developed a minimal, mobile-first landing page for a moving company using Tailwind CSS for fast load times and responsive design.
- Focused on delivering an easy-to-navigate website for users to learn about services and contact the company.

🚀 HARD SKILLS

Programming Languages
Java, C++, Python, JavaScript

Web Development
HTML5, CSS3, Tailwind CSS, React

Frameworks
Spring, Embarcadero RAD Studio

Databases
MySQL, Microsoft SQL Server

Version Control
Git, GitHub

Design Patterns & Architecture:
Object-Oriented Programming (OOP), MVC Architecture, RESTful APIs, Microservices

Methodologies
Agile (Scrum), TDD (Test-Driven Development)

Containerization
Docker, Kubernetes

Testing
Selenium, Postman

🏳 SOFT SKILLS

Problem Solving

Analyzing issues and finding effective solutions

Team Collaboration

Working efficiently with cross-functional teams

Adaptability

Quickly adjusting to new challenges and environments

Time Management

Managing multiple tasks and meeting deadlines

Attention to Detail

Ensuring precision and accuracy in all tasks

Clear Communication

Effectively conveying technical and non-technical information

📄 CERTIFICATION

Spring Framework [Udemy]

QA Manual [BEETROOT ACADEMY]

📄 PROJECTS

Shop Manager (Inventory & Sales System)   11/2023 - 01/2024

Software Developer C++

- Designed a C++ application for retail inventory and sales management with real-time tracking, including sales, products, and discounts.
- Integrated SQL database for persistent storage and reporting, streamlining order management and enabling effective business analysis.

🔗 https://github.com/LeMax95/ShopManager-CPP-Inventory.git

Auto-Clicker Automation Tool   10/2024 - 12/2024

Software Developer Python

- Developed a Python-based automation tool using Selenium for simulating human-like web interactions with dynamic IP and geolocation spoofing via Express VPN.
- Configured tasks through a JSON file, enabling automated clicks, keyword targeting, and click-based reporting for tracking performance.

🔗 https://github.com/LeMax95/Auto-Clicker.git

Taxi Service Management System   10/2023 - 01/2024

Software Developer C++

- Developed a C++ system for managing taxi orders, including price calculation, order creation, and address lookup.
- Integrated SQL database for seamless data management, reporting, and ensuring real-time access to customer and order information.

🔗 https://github.com/LeMax95/EmbarcaderoTaxiApp.git

Template Manager App   11/2023 - 02/2024

Software Developer JavaScript

- Built a versatile text management tool with a rich-text editor, quick search functionality, and secure browser storage for templates.
- Developed both a web app and a browser extension with bulk template import/export capabilities for efficient template management.
